Dear Neighbors...

Now that it seems like spring is here to stay, please remember that on weekends and evenings during the week, children will be out playing on our streets. Please take your time driving through our neighborhood as most of the traffic we have is from us, the residents. With the increase in hybrid and full electric vehicles the warning sounds of a car approaching are not as easy for children to hear, so be patient as they may not know you are behind them or coming down the road. Also remind your children that they might not always hear a car anymore and need to make sure they are looking when riding bikes, playing or crossing the streets.

One of the many things that makes a neighborhood a great place to live is looking out for one another. Please do your part to help keep our Village a great place to call home.
